At the branch farms much of the work is so arranged as to cover those questions which are of the most immediate importance to the farmers residing in the several provinces. Each farm is furnished with suitable buildings and supplied with the best breeds of dairy cattle and some of those best suited for beef. Useful experiments are conducted with these, also in raising swine and poultry. Many tests are made with the most promising varieties of grain, fodder-crops, roots, vegetables, forest and ornamental trees, shrubs, c. Experiments are also conducted as to the best methods of preparing the soil for crops of various sorts, in the draining of land, in determining the best time for sowing, and also the most practical methods of maintaining the fertility of the soil. 754. A large proportion of those varieties of grain grown on the several farms which prove to be the best and most productive, is distributed by mail in small bags containing 3 pounds each, to farmers in all parts of the Dominion who ask for them. These sample bags of grain, when sown and properly cared for, usually produce from one to three bushels, and...
