Veloce Publishing Ltd. Paperback. Book Condition: new. BRAND NEW, Anglo-American Cars: From the 1930s to the 1970s, Norm Mort, This TWtD book covers British cars powered by American engines and American cars fitted with British power plants, all built from the 1930s to 1970s. Many of the American-powered British makes offered for sale were often built with everything from trials and rallies to road racing in mind. For enthusiasts, the American V8 in a British chassis provided fast, reliable touring at a fraction of the cost. In contrast, the American cars fitted with British power plants were often designed with economy in mind. Brochures, period literature, road test info of the day, factory press kits and over sixty colour photos of restored examples provide detailed shots of the engines and styling that set these Anglo-American cars apart. Decade by decade information allows for direct comparison.
